LIST OF STATEMENTS SUBMITTED WITH THE ANNUAL REPORT FOR THE YEAR 1922.

No	PAGES
General Summary, showing the distribution of prisoners of all classes	1A—7A
I—Statement showing the number and disposal of convicts ..	8A—11A
II—Statement showing the religion, age, state of education and previous occupation of convicts committed into the jail ..	12A—15A
III.—Statement showing the convicts admitted into the jails during the year 1922 and those remaining on the 31st December of that year, according to the nature and length of sentences ..	16A—31A
IV—Statement showing the convicts admitted who had been previously convicted	32A—37A
V—Statement showing escapes and recaptures of convicts ..	38A
VI—Statement showing the offences committed by convicts and the punishment inflicted on them	38A—37A
VII—Statement showing employment of convicts as prisoners ..	38A—39A
VIII—Statement showing the scale of discipline ..	40A—41A
IX—Statement showing the expenditure regarding and maintaining prisoners (including the cost of building and repair, additions alterations and repairs)	42A—47A
X—Statement showing the average expenditure per prisoner from 1919 to 1922	48A—52A
XI—Statement showing the employment of convicts	53A—55A
XII—Statement showing the net total earnings of convicts transferred to labour	56A—57A
XIII—Statement showing the net cost per prisoner	58A—59A
XIV—Statement showing the sickness and mortality among prisoners of all classes	60A—69A
XV.—Statement showing admissions and deaths from the chief diseases among convicts	70A—71A
XVII—Statement showing mortality among convicts in the jail according to the length of time passed in jail	72A—73A
XVIII—Statement showing particulars regarding prisoners under-trial ..	74A—75A
A—Statement showing the nature and amount of accommodation for each class of prisoners at the close of the year	76A—77A
B—Statement showing the condition of convicts discharged ..	78A—79A
C—Statement showing the working of the remission system ..	80A—81A
D—Statement showing the nature of crimes for which convicts were imprisoned	82A—87A
No 1 (Provisional)—Statement showing the result of employment of convicts	88A—89A

Report on the Administration of the Jails in the United Provinces for the year ending 31st December, 1922.

No. $\frac{7297}{48}$ of 1923.

FROM

LT-COL. J. M. WOOLLEY, M.D. I.M.S.

INSPECTOR-GENERAL OF PRISONS,

Errata to the Annual Report on the Jail Administration of the United Provinces for the year 1922.

Table of contents, page ii. Insert the following at the bottom, after inserting a line —

"Note — The number of pages fixed as the maximum for the report is 20".

Page 21, paragraph 37, twelfth line read "decreased" for "increased".

Page 24, paragraph 65, twenty-third line read "1,771" for "1,711".

Page 24, column 3B and 3C A, grand total, read "105" and "27,110" for "103" and "7,110" respectively.

Page 45A, column 5H (grand total), grand total, read "1,11,721" for "1,11,72—".

Page 65A, column 7T, serial no 20 (prisoners) read "2741" for "2711".

J. E. CLEMENTS,

LT-COL. I.M.S.,

Off. Insp. General of Prisons,

United Provinces.

hired in the jails during the year.

The year opened with 23,793 males and 439 females, or a total of 24,282 prisoners of all classes. Ninety-two thousand five hundred and eighty-two males and 2,356 females, or a total of 94,938 prisoners, against 83,743 in the previous year, were admitted to the jails by direct admission or transfer from other jails. The total number of prisoners of both sexes thus available for disposal during the year was 1,19,220, or 10,090 more than in 1921. Ninety thousand, nine hundred and thirteen, or 6,065 more than in 1921, were discharged from all causes, leaving a balance of 27,788 males and 519 females, or a total of 28,307 prisoners of all classes, against 24,282 in 1921, in the jails at the close of the year.

The daily average number of each class of prisoners as compared with that of the previous year is recorded as follows:—

			1922.	1921.
Convicts	23,293	21,985
Undertrials	3,381	3,054
Civil prisoners	104	125
Total	26,778	25,164

The year therefore shows an increase of 1,614 in all over the figures of 1921. This increase may be said to be due to two causes, the non-co-operation movement and the high price of food.

The following is the daily average number of prisoners of all classes from January to December, 1922:—

January	24,806
February	25,523
March	26,044
April	26,787
May	27,550
June	28,047
July	25,889
August	25,580
September	27,249
October	28,293
November	28,081
December	27,936

The decrease in the month of July was due to a special jail delivery which took place in that month.

Further details about convicts and undertrials will be given when dealing with other statements relating to them.

As regards civil prisoners, the year opened with 95 males only. One thousand and twenty-eight males and three females, or a total of 1,031 prisoners, against 1,123 in 1921, were received during the year, and out of the total number 1,004 were discharged from all causes as compared with 1,136 in 1921, leaving a balance of 122 males only at the end of the year. There were no deaths among civil prisoners. Their daily average number was 104, or 21 less than that of 1921. There was no interned prisoner in our jails at the close of the year.

5. An unusual feature of the year under review, unknown previously in the history of the department, was the large number of political prisoners admitted into our jails. At the beginning of the year non-co-operation was rife, and many arrests for political offences were taking place. These political prisoners were concentrated after the 4th of January in the four district jails at Agra, Bareilly, Benares and Lucknow. It was considered desirable to classify these prisoners and locate the different classes in separate jails. On the 26th of January orders were issued differentiating between 1st class and 2nd class political misdemeanants and Lucknow District Jail was reserved for the confinement of the former, while all second class misdemeanants were transferred to Fyzabad District Jail. The maximum number of these two classes at the Lucknow District Jail were respectively 297 in April and 483 in January, while at Fyzabad the maximum number confined was 510 in the month of March. There were no first class misdemeanants in this latter jail. Towards the end of the year the number of political prisoners diminished till there remained 119 first class misdemeanants in the Lucknow District Jail and only nine second class misdemeanants in Fyzabad and Almora District Jails.

6. *Statement no. 1 shows the number of convicts and their disposal during the year.*—There were 20,541 male and 3,49 female convicts in confinement at the beginning of the year against 22,307 and 455 respectively in the previous year. The direct admissions to jails during the year numbered 33,335 males and 756 females, as compared with 30,746 males and 990 females in the year 1921. Political agitation and high price of food stuffs during a major part of the year are chiefly responsible for the increase of 2,285 convicts in the number of direct admissions. The number of convicts received on transfer from other jails, both in and out of the province, amounted to 13,595, or 6,496 more than in 1921. The increase in the number of prisoners received on transfer is mainly due to the fact that some jails had to be emptied of ordinary convicts for the confinement in them of political prisoners of these provinces. During the year under report 86 transportation prisoners were also received back from the Andamans on medical grounds.

Sixteen thousand two hundred and thirty-six prisoners, against 9,786 in 1921, were transferred to other jails both in and out of the province.

As the transportation prisoners are not now deported, columns 8 B and 10 of this statement are blank.

The number of prisoners released on appeal shows a decrease of 373, being 2,646 against 3,019 in the previous year. The decrease may be attributed to the refusal of political prisoners to file an appeal. The number of prisoners released on expiry of sentences rose from 15,555 in 1921 to 15,862.

The number of convicts released under the Good Conduct Remission Rules amounted to 6,445, or 721 less than in 1921. Several prisoners, who would have been released under the Remission Rules, were released in July on account of the special jail delivery, and hence the fall in the number of such releases.

The number of prisoners released by order of Government on account of sickness was 40 against 34 in 1921, and of those released on other grounds was 5,064 against 7,243 in the previous year. The number of prisoners released on other grounds includes prisoners released in connection with the special jail delivery in July above referred to, and also a few non-co-operator prisoners, who were released on tendering apologies.

Thirteen prisoners, against 24 in 1921, were transferred to the lunatic asylums.

Out of the ten convicts who escaped during the year, six were recaptured and four remained at large at the close of the year. Further details of these escapes are given under statement no V.

One hundred and sixty prisoners, or 43 more than in 1921, were executed during the year.

The deaths of convicts numbered 329, or 128 less than in 1921. The health of the convicts will be discussed when dealing with the Vital Statements.

Twenty-four thousand seven hundred and eight males and 407 females, or a total of 25,115 convicts of both sexes, remained in confinement at the end of the year. This shows an increase of 3,867 convicts

over which so confined at the beginning of the year. The daily average number of convicts of both sexes is given below :—

			Males	Females	Total
1921	21,543	412	21,935
1922	22,902	89	23,993
		Increase	+1,361	+53	+1,303

43.52 per cent of the convicts were habituals as compared with 40.92 in 1921.

7. *Statement no II shows the religion, age, state of education and previous occupation of convicts admitted into the jails during the year.*—Thirty-four Europeans were admitted during the year, as compared with 16 in 1921.

The number of Anglo-Indians convicted was 13, against 16 in the previous year.

Forty Indian Christians were convicted as compared with 57 in 1921.

Six thousand two hundred and ten Muhammadans were imprisoned during the year, or an increase of 402 over those convicted in 1921.

The number of Hindus convicted during the year was 27,773, or 1,797 more than in the preceding year. One Parsi was imprisoned.

8. The following table shows the ratio per cent, of the classes mentioned above to the free population and to the prison population :—

			Free population	Prison population.		
				1920	1921	1922.
Christians	0.38	0.22	0.39	0.26
Muhammadans	14.98	17.27	17.99	18.23
Hindus	85.08	82.51	81.72	81.51

These percentages of convictions show an increase in Muhammadans and a slight decrease in Christians and Hindus.

9. *Juveniles.*—During the year 124 convicts, or 23 more than in 1921, whose ages were below 16 years, were admitted to the jails. As the cases of all such juveniles are directly reported to Government by the jails concerned, I need not dwell on the propriety, or otherwise, of sending them to undergo imprisonment in jails. The increase in the number of admissions is, however, regrettable.

Those juveniles who were found fit for confinement in the juvenile jail at Bareilly were sent there. The number of juvenile prisoners in the juvenile jail at Bareilly was 189 at the beginning of the year. Three hundred and thirteen were received by transfer from other jails during the year, and 242 were discharged from all causes, leaving a balance of 260 in the jail at the end of the year. The daily average number of the juveniles confined in this jail was 207, against 228 in the previous year. There was no death during the year, and the health of the prisoners was excellent. The number of punishments inflicted on these prisoners was 94, against 79 in 1921, without any flogging. Their conduct was good throughout the year.

As usual great attention is paid to the moral education of the boys and to the carrying out of physical exercise parades, as well as in giving them the ordinary elementary school training. These have, no doubt, a most beneficial effect on their health and conduct in jail. Classes in first

aid to the injured were started in the jail during the year. It is good to see that this institution continues to maintain its high reputation.

10. Habitual juvenile prisoners under 16 years of age are as usual kept in the Agra Central Prison, and their daily average number was 8.63 against 6.09 in 1921. Other habitual juvenile and adolescent prisoners are confined in the remaining five central jails, except Benares, where they are confined in the local district jail.

A special jail for habitual juvenile prisoners is urgently needed. Nothing has been possible in this direction since last report.

11. Female juvenile prisoners of under 15 years of age are kept in the Lucknow Central Prison, but no such prisoner was admitted to that jail during the year.

12. Of the prisoners who were admitted to the jails during the year, 7.37 per cent. were literate.

The following table shows the percentages for the last five years :—

Year.	Literate.	Illiterate.
1918	1.45	98.55
1919	3.11	96.89
1920	3.42	96.58
1921	5.63	94.37
1922	7.37	92.63

The percentage of literate prisoners shows a gradual increase for the past two years owing apparently to the admission into our jails of a considerable number of literate non-co operator prisoners.

13. *Statement no. III shows the convicts admitted to the jails during the year and those remaining at the end of the year, according to the length and nature of their sentences.*—During the year 34,071 convicts, or 2,255 more than in 1921, were admitted to the jails. The percentages for the various classes of prisoners convicted are given below, as compared with those of the previous year :—

	1922.		1921	
	No.	Per cent. age.	No.	Per cent. age.
1. Prisoners sentenced to simple imprisonment	2,114	6.2	1,821	5.0
2. Prisoners sentenced to rigorous imprisonment	29,752	87.3	27,803	87.5
3. Prisoners sentenced to rigorous imprisonment with solitary confinement ..	2,137	6.3	2,112	6.6
4. Prisoners sentenced to rigorous imprisonment with whipping	66	0.2	25	0.1
Total	34,071	100.0	31,756	100.0

The percentages of the prisoners sentenced to rigorous imprisonment and of those sentenced to rigorous imprisonment with solitary confinement show again a slight decrease as was noticed in the previous year.

The figure 6.3 per cent., which represents sentences of rigorous imprisonment with solitary confinement, requires attention. It is a low figure and has fallen in recent years. It cannot be said that the conditions of imprisonment in India are unduly severe on the convicts, and there must be many whose conditions of imprisonment, considering the nature of their offences against society, might well be made more deterrent. There is no doubt that solitary confinement is much disliked

by the average prisoner and is undoubtedly of a deterrent nature, and in my opinion it would be a very good thing and tend to minimize crime if solitary confinement were more often added by Magistrates to sentences of rigorous imprisonment.

The terms of sentences of the prisoners convicted are noted below :—

	Admission 1922	Percentage for 1922	Percentage for 1921	Percentage for 1920
Not exceeding one month	5,141	15.69	17.39	17.44
Above one month and not exceeding three months	6,822	18.56	21.04	18.78
Above three months and not exceeding six months	5,337	15.00	15.71	17.07
Above six months and not exceeding one year	10,763	31.60	26.10	23.52
Above one year and not exceeding two years	3,005	9.00	9.71	9.19
Above two years and not exceeding five years	1,792	5.26	5.35	5.43
Above five years and not exceeding ten years	557	2.81	2.44	3.10
Exceeding ten years	61	0.18	0.30	0.20
Sentenced to transportation for life	252	1.03	1.07	1.21
Sentenced to transportation for a term	44	0.13	0.10	0.29
Sentenced to death	232	0.68	0.63	0.71
Total	34,071	100.00	100.00	100.00

Of the total number of convicts admitted during the year, 40.31 per cent. were under sentences not exceeding six months, against 54.14 in 1921.

This is a most interesting figure well worthy of attention, and a more powerful argument for the introduction of the probation system could not possibly be produced. If this system were introduced in these provinces, it would apparently mean that the majority of these, that is, half the jail population approximately, would not come to jail at all.

The percentage of the prisoners sentenced to above six months and not exceeding one year shows an increase of 5.44.

14. *Statement no. IV shows the number of convicts admitted during the year who had been previously convicted*—The total number of habitual prisoners, including the number of prisoners imprisoned for the first time in default of finding security under section 110, Criminal Procedure Code, was 9,026 or 26.49 per cent. of the total number of the newly admitted convicts as compared with 7,272 or 22.87 per cent. in 1921.

Habituals are kept apart from casuals, as far as the accommodation in our jails permits, both while at work and in barracks at night.

The number of youthful offenders under 15 years of age, viz, 47, was the same as in the previous year. Of these 14 had previous convictions as compared with 10 in 1921.

The following statement gives particulars regarding the identification of habituals by the police and in jails :—

Statement showing the number of habitual criminals received in the jails of the United Provinces during the year 1922.

Serial number.	Name of jails.	Number of convicts admitted during the year.	Number in column 3 identified as "habituals" before conviction and classified as such by the convicting courts.	Number in column 3 classified as "habituals" by the District Magistrate or Magistrate specially empowered (not being the convicting court).	Number in column 3 classified as "habituals" by the Jail Superintendent.	Total number of habituals admitted.	Ratio per cent. of col. 7 to col. 3

15. *Statement no V shows the escapes and recaptures of convicts during the year.*—Of the ten convicts who succeeded in escaping from the jail during the year, six were recaptured and four remained at large at the end of the year. Five convicts effected their escapes while working outside the main wall.

The most notable escape took place on the 18th July, 1922, from the Goralpur District Jail. A leader of convicts named Komal was undergoing 3½ years' rigorous imprisonment and waiting trial in a murder case. He was wearing bar fetters and locked up with others with a convict warder to look after him. Komal and the convict warder having cut through an iron bar escaped during the night with the assistance of the convict overseer on duty outside. Without the latter's assistance the escape would have been impossible. This is an instance, happily rare, in which the loyalty of convict officials failed. The convict overseer at fault was prosecuted and received one year's simple imprisonment and Rs. 100 fine or three months more simple imprisonment. Suitable action was taken in the case of jail officials who were also blameworthy in this case.

At the Bareilly Central Jail there occurred two organized attempts at escape in September and October, 1922. In each case an informer disclosed the plan. In one case two prisoners were flogged, deterrent punishment being indicated, as nine convicts were involved.

16. *Statement no. VI shows the offences committed by convicts and the punishments inflicted on them during the year.*—Of the total number of punishments, which was 23,988 against 22,558 in 1921, only 21 were inflicted by Magistrates, and the remainder by Jail Superintendents. Out of the 21 punishments inflicted by Magistrates

13 were in connection with escapes or attempts at escape and the rest in connection with assaults on jail officials or on other prisoners. During the year a life prisoner named Ghis Lal made a murderous assault on Mr. Fordham, Deputy Jailor, in the Allahabad Central Prison, while he was on duty, and severely injured him. He was sentenced to death by the Sessions Judge, Allahabad. Government granted a gratuity of Rs. 500 to Mr. Fordham in compensation for the injury received by him.

The offences relating to work and prohibited articles numbered 13,501 and 1889 respectively against 11,925 and 1,811 in the previous year.

The number of offences relating to assaults, mutiny and escapes dealt with by Superintendents amounted to 130 against 117 in 1921, and all other breaches of jail rules 8,443 against 8,682 in 1921.

Of the total number of punishments awarded for the above mentioned offences no less than 8,005 were formal warnings, 98 penal diet with or without solitary confinement, 1,088 separate, cellular and solitary confinement and 5,861 fetters, hand-cuffing and link fetters as compared with (7,757), (1), (624) and (5,363) respectively in the previous year. The increase in penal diet as a punishment is noticeable. It is a form of punishment which has been little used of recent years as it was necessary during the past year as refusal to work was becoming common at one time. An increase in the number of punishments under separate and solitary confinement is noticed. Certain prison offences were suitably dealt with in this way.

The ratio per cent. of punishments to the daily average population compares as under with the corresponding figures of the previous year:—

	1921.	1922.
Of minor punishments	74.25	77.04
Of major punishments	25.28	25.44
Of total punishments	102.60	102.98

The percentage of major punishments shows a decrease of 2.42.

The usual statement showing particulars regarding flogging inflicted is appended, in accordance with Government order no. 3350/VI—874B, dated the 14th November, 1907:—

1	2	3	4						5	6	7	
Year.	Total number of male prisoners for the year.	Total number of jail offences.*	Total number of prisoners punished by whipping.						Percent of column 4 to 3	Percent of column 4 to 3	Number of prisoners in whose cases the corporal punishment resulted directly or indirectly in—	
			5 to 10 stripes.	10 to 15 stripes.	15 to 20 stripes.	20 to 25 stripes.	25 to 30 stripes.	Total.			Fines	Death
											A.	B.
1922	70,457	15,909	..	4	8	5	23	40	0.05	0.25

*Excludes offences dealt with by criminal courts, offences committed by female prisoners, and offences punished by warning only, vide G. O. no. 4249/VI—1003, dated the 6th November, 1913.

The number of floggings was 40 against 23 in 1921, and the ratio per cent. to the total of punishments was 0.16 against 0.10 in the previous year.

The number of floggings has risen from 23 in 1921 to 40. The offences which called for this punishment were assaults, attempts at escape and persistent refusal to work. It was necessary to have recourse to this punishment as it is essential to maintain discipline in our jails. Petty floggings of less than the full 30 stripes are contra-indicated and Superintendents who gave petty floggings have been informed to this effect.

Of the 40 prisoners flogged, 30 were habituals. Of the total number of punishments 10,455 or 43·58 per cent. were inflicted on habituals, as compared with 10,160 or 45·04 per cent. in the previous year.

17. *Statement no VII shows the employment of convicts as prison officers in the jails during the year.*—The average number of convict officers employed was 2145·67 males and 26·63 females, the ratio per cent. to the total prison population being 9·36 males and 6·84 females, as compared with 10·06 males and 6·85 females in the previous year. The total number employed as convict officers was 7,403 males and 91 females, against 7,696 males and 92 females in 1921. Their conduct and work was good with very few exceptions.

The total number of reductions or other punishments awarded to these men was 1,777, against 2,186 in 1921. Although much of the work of watch and ward in the jails was done by them owing to the insufficient number of warders employed in each jail, it became necessary to entertain in certain jails extra temporary warders to look after important criminals.

18. *Statement no. VIII shows the scale of diet in force in the jails during the year.*—No change was made in the authorized diet scales during the year.

FINANCIAL.

19. *Financial statement no. IX shows the expenditure incurred in guarding and maintaining prisoners in the jails during the year, excluding the cost of building new jails, of additions, alterations and repairs.*—The total cost of guarding and maintaining the prisoners was Rs. 33,52,422 as compared with Rs. 29,42,354 in the previous year and Rs. 27,36,657 in 1920, or an increase of Rs. 4,10,068 over the figures of the year 1921. This increase was mainly due to the rise in the number of prisoners and to the higher rates of foodstuffs prevailing when the grain was stored for the year. The daily average strength of prisoners of all classes was 26,773, against 25,164 in the previous year. The total cost per head was Rs. 125-3-0 as compared with Rs. 116-14-10, or an increase of Rs. 8-4-2 over the figures of last year. The chief variations under the different heads are explained below :—

20. *Establishment.*—The expenditure under this head was Rs. 9,12,481 as compared with Rs. 8,51,550, or an increase of Rs. 60,931 over the figures of the previous year. The increase is chiefly due to the following causes :—

- (1) The revision of pay of I.M.S. officers and the general increase in the pay of Sub-Assistant Surgeons.
- (2) The entertainment of extra clerks and muharrihs to cope with the additional work in connection with the political prisoners and the Revision Boards.

- (3) The employment of a large number of extra temporary warders for the watch and ward of political prisoners and the large number of under-trials in the Chauri Chauri case and for guarding the portions of the main walls of many jails which fell down during the last heavy rains.

The total cost per head rose from Rs. 33-13-5 to Rs. 34-1-2 in the year under report.

21. *Dietary charges*—The total expenditure incurred under this head was Rs. 18,11,721 against Rs. 15,05,480 in 1921. The increase of Rs. 3,06,241 over the expenditure of the previous year is mainly due to the increase in the number of prisoners who remained in confinement during the year and also to the prices of food grains being higher at the time of storage. The cost per head was Rs. 67-14-8 against Rs. 60-2-0 in 1921.

The grain purchase committee held annually to advise the department as regards purchasing grain for the year, recommended purchase for the whole year in April. Prices fell subsequently so that this year the advice did not benefit the department. In previous years, however, great advantage had resulted from the Committee's recommendations.

Vegetables raised by convict labour contributed to reduce the dietary charges by Rs. 92,872.

22. *Hospital charges*—The total amount spent under this head was Rs. 1,00,743 as compared with Rs. 1,03,290 in 1921, or a decrease of Rs. 2,547. The average cost per head fell from Rs. 4-1-8 in 1921 to Rs. 3-12-2 in 1922. The decrease is mainly due to the stoppage of the issue of quinine for prophylactic purposes.

23. *Clothing and bedding of prisoners*—The total expenditure under this head was Rs. 2,12,564 against Rs. 1,84,167 in 1921, or an increase of Rs. 28,397. The high prices of wool and thread and the increase in prison population are entirely responsible for the excess expenditure, although every effort to exercise economy was made in the use and supply of clothing to prisoners. The average cost per head rose from Rs. 7-5-8 in 1921 to Rs. 7-15-6 in the year under report.

24. *Sanitation charges*.—This head shows an expenditure of Rs. 45,154 against Rs. 42,433 in 1921, or an increase of Rs. 2,721, which is explained below :—

The head "Conservancy charges" shows an increase of Rs. 3,165, which was necessary to keep the jails sanitary and free from epidemic diseases.

Charges for water supply show an increase of Rs. 1,535, which is due to the payment of water rates during the calendar year by certain jails.

The head "Extraordinary charges" however shows a decrease of Rs. 1,979. This is due to the fact that the jails were practically free from any serious epidemic diseases.

The cost per head was Rs. 1-10-11.

25. *Charges for moving prisoners*. The expenditure incurred under this head was Rs. 62,948 against Rs. 47,847 in 1921, or an increase of Rs. 15,101, which is for the most part due to the increase in Railway fares and the large number of transfers, which were necessary either to relieve overcrowding in particular jails, or for disciplinary reasons as far as the removal of non-co-operator prisoners was concerned.

26. *Miscellaneous services and supplies*.—This head shows a decrease of Rs. 963,

"Lighting charges" show an increase of Rs. 2,324 as the price of kerosene oil was high throughout the year.

"Disciplinary charges" also show an increase of Rs. 1,333 due to rise in the prison population.

The substantial fall under "Uniform and equipment of warders" is more apparent than real as certain charges could not be adjusted before the close of the year.

There was a small decrease of Rs. 1,105 under "other miscellaneous" which needs no remarks.

27. *Travelling allowance.*—This head shows an expenditure of Rs. 15,068 as compared with Rs. 16,580 in 1921. The decrease of Rs. 1,512 is satisfactory, and is due to a smaller number of officials transferred during the year.

28. *Contingencies.*—This head shows an increase of Rs. 5,012 over the figures of the previous year owing to the rise in population. The average cost per head was Rs. 2-0-9 against Re. 1-15-8 in 1921. The important variations are explained below:—

The head "Rent, rates and taxes" shows a decrease of Rs. 1,507 owing to non payment of taxes by certain jails during the calendar year and to the discontinuance of payment of house rent for certain jail officials whose quarters were completed and re-occupied.

The heads "Service postage" and "Telegram and Telephone charges" show an increase of Rs. 1,639 and Rs. 2,139 respectively, which are chiefly due to the increased rates of postage and telephone charges.

There is an increase of Rs. 3,029 under the head "Charges for Registers and Stationery" owing to the adjustment of the cost of books and forms during the calendar year.

The heads "Current office expenses" and "Office furniture" show a decrease of Rs. 53 and Rs. 230 respectively.

29. *Extraordinary charges for live stock, tools and plant.*—The total amount spent under this head was Rs. 7,125 against Rs. 10,268 in 1921, or a decrease of Rs. 3,143. This fall is mainly due to the non-adjustment of charges under "Arms and accoutrements" during the calendar year.

30. *Statement no. X shows the expenditure in guarding and maintaining prisoners in the jails during the year 1922 excluding the cost of building new jails, of additions, alterations and repairs compared with expenditure on the same account in each of the three previous years.*—The average cost per head of average strength for the past four years is as under:—

						Rs. a p.
1919	103 14 0
1920	110 4 0
1921	117 0 0
1922	125 4 0

The gradual increase in cost is due to the reasons already explained in paragraph 30 of the last year's report, and no repetition appears necessary. At the end of the year the prices of food grains had fallen, but this did not benefit us as we had already purchased in the spring. If the present rates continue we may expect an appreciable fall in expenditure next year.

31. *Statement no. XI shows the employment of convicts in the jails during the year.*—The daily average number of prisoners

sentenced to labour was 22,577, or 770 more than in the previous year. Deducting from this number 511 sick in hospital, 659 convalescent and infirm and 424 who were not employed for various other reasons, the number of convicts available for work in the jails was approximately 21,000, or 769 more than in 1921. The daily average number of prisoners employed on unremunerative labour was 41, against 62 in the previous year. These prisoners were employed in the Bareilly Juvenile Jail in learning various industries. The number of convicts employed as prison officers and prison servants was 2,172 and 2,036, against 2,198 and 2,435, respectively, in the preceding year. A daily average of 1,337 convicts was employed in jail gardens, and by their labour vegetables worth Rs. 92,872 were produced and supplied free of cost for the use of prisoners. The average earning per head of the prisoners, employed in gardening was Rs. 69-7-4. Two thousand five hundred and ninety-eight prisoners were employed daily in preparing articles for the use of prisoners, e.g., grinding corn and manufacturing clothing, etc., and no credit was taken in the jail accounts for the labour so employed. The number of prisoners employed on repairs and additions and alterations to Jail buildings was 1,091. All repairs to jail buildings and most of the original work carried out in the jails are executed by convict labour, and speaking generally, the jails are now in fairly good condition. Ten thousand two hundred and twelve convicts were employed in jail factories, the percentage to the total population sentenced to labour thus employed being 45.23 against 46.16 in the previous year.

32 The Central Prisons carried on the following special industries —

Bareilly Central Prison.—Moonj matting, blanketing and muslin weaving constitute the chief industries in this institution. The cash profit per head of the number of prisoners employed on jail manufactures was Rs. 50 15-0 against Rs. 51-0-0 in 1921.

Agra Central Prison.—Carpets, durries and blankets are made and this year the weaving of turban cloth has been commenced as a new industry. Orders for carpets were poor during the year. The jail shows however a net cash profit of Rs. 63,191, which is Rs. 3,914 more than in 1921, and is the highest figure for the last 27 years for this jail.

Fatehgarh Central Prison.—The tent factory is the chief industry here. Owing to Government cutting down the supply of tents to officers, orders for these have been fewer during the year and profits have fallen from Rs. 48,506 in 1921 to Rs. 15,308 in 1922. The value of tents ordered during the year is approximately only half that of 1921. The total profits for 1922 are Rs. 1,21,554.

Allahabad Central Prison.—Profits for 1922 are Rs. 1,05,610 against Rs. 94,283 for 1921. Printing and Press work account for the increase.

Benares Central Prison.—This jail made a profit of Rs. 45,457 against Rs. 42,122 in 1921. Iron feeding vessels for all the jails are made in this jail and also cotton and woollen clothing for the Benares Lunatic Asylum.

Lucknow Central Prison.—Shows a cash profit of Rs. 30,693 against Rs. 29,459 in 1921. Moonj matting is the chief industry.

33. *Statement no. XII shows the net cash earnings of the convicts sentenced to labour in the jails during the year.*—As regards cash profits the Government resolution on the Jail Report of last year remarked that they were highly satisfactory. I am glad to say we have done still

better this year, the total profit being Rs. 5,86,307 against Rs. 4,47,046 for 1921. This is a very appreciable rise and speaks well for the efforts made by jails to run their factories in a business like way.

The average earning per head of convicts sentenced to labour for the year was Rs. 25-15-0, a most satisfactory figure. Last year it was only Rs. 20-8-0.

The following figures show the profits of central jails.—

					Rs.
1	Fatehgarh	1,21,754
2	Aligarh	1,05,610
3	Aggra	68,191
4	Banars	4,457
5	Bareilly	12,574
6	Lucknow	30,693

At Fatehgarh there is the tent factory and at Naini (Aligarh) a Government Press.

As regards district jails the following three show best results.—

					Rs.
Aligarh	21,927
Cawnpore	12,015
Meerut	11,229

Aligarh has its quinine factory and thus differs from other jails as regards its industry. The Jailer, Rai Sahib Prag Das, has done very well in making such a high profit.

Cawnpore heads the list of ordinary district jails. Being an industrial centre its facilities for business are good, but none the less Khan Sahib Amanat Ullah, the Jailer, has done remarkably well.

Meerut also deserves praise. Jailer Bhogi Ram has shown himself as one of our best jailers, as apart from the excellent profit he shows, he has had the heavy responsibility of the largest district jail with many non-co-operator prisoners.

A note is here necessary regarding the new system of supplies to jail factories by the Industries department. It is found by experience that the original idea that industries should supply the jails with most of their requirements was not practicable nor economical. At present a good arrangement has been arrived at under which industries supply jail factories with the more important materials, such as canvas for tent cloth and cotton yarn while the multifarious smaller items are obtained by jails by local purchase.

34. *Provincial statement no. I shows the result of the employment of convicts in the jails during the year.*—Taking into account the opening and the closing balances of manufactured articles in stock and the outstanding debts, etc., due to various jail factories at the end of the year, the total gross profit for the year was Rs. 5,34,184 against Rs. 5,19,146 in the previous year showing an average profit per head of Rs. 23. It is satisfactory to note that the amount of outstandings was far less than it was in the year before.

35. *Statement no. XIII shows the net cost of the prisoners confined in the jails during the year.*—The total cost incurred in maintaining the prisoners was Rs. 33,53,773 and after deducting the cash profits earned, viz., Rs. 5,86,307 and the sum realized from Indian states and other provinces, viz., Rs. 1,356 the net cost of maintenance was Rs. 27,66,115 against Rs. 24,95,308 in 1921 and Rs. 22,64,364 in 1920. The net cost per head was Rs. 103-5-0 against Rs. 99-3-0 in 1921.

VITAL.

36. *Statement no. XIV shows the sickness and mortality among the prisoners of all classes in the jails during the year*—As regards sickness the admissions to the hospital numbered 16,100 against 15,227 in 1921. This gives a daily average sick rate of 556.24 as compared with 593.76 in the previous year. Deaths in 1922 numbered 391 against 539 in 1921 as noted below:—

				1922.	1921.
Convicts	529	457
Under-trials	62	80
Civil Prisoners	2
Total	391	539

The ratios per mille were as under:—

	1922	1921
Of admission into hospital	601.2	607.8
Of daily average number of sick	21.5	22.3
Of deaths from all causes both in and out of hospital	14.6	21.4

From these figures it will be noticed that although the admissions to hospital were approximately the same as in the previous year, the death-rate, which was 14.6 only, is much lower than in 1921, when it was 21.4. During the past four years the death-rates were 46.0 in 1918, 24.4 in 1919, 17.0 in 1920 and 21.4 in 1921.

It is very satisfactory to be able to report so low a death-rate as 14.6 and the figure is creditable to all concerned.—

57. *Health of the central prisons.*—The death-rates are as follows:—

Bareilly Central Prison	24.7
Benares "	"	16.8
Allahabad "	"	14.5
Lucknow "	"	12.0
Agra "	"	9.0
Fatehgarh "	"	6.4

Bareilly Central Prison with its death-rate of 24.7 has been unusually affected with cases of pneumonia, dysentery and cholera. Necessary action is being taken to reduce the incidence of these diseases.

58. *Health of district jails.*—Sultanpur District Jail shows the highest death rate, namely, 79.6. This jail receives cases of tuberculosis from all other jails and a high death rate is inevitable. As a matter of fact 20 deaths occurred during the year, all from tuberculosis.

Mirzapur.—Comes next with a death-rate of 58.4. There were ten deaths, five from Influenza when an outbreak occurred in March and April. As the jail is small, ten deaths make a high death-rate, but this jail is badly situated in the middle of the city, which accounts for its being unhealthy.

Naini Tal.—Shows a death-rate of 50.0. There were only two deaths of under-trial prisoners.

Dehra Dun (34.4).—Three deaths only.

Moradabad (32.7).—There were 14 deaths, ten from pneumonia. The attention of the Superintendent is being called to these figures.

Budaun, (31.5).—There were 13 deaths, eight of which were due to respiratory diseases.

Bulandshahr (26.7).—This jail like Mirzapur is badly situated in the city.

Banda (26.7).—It is satisfactory to see this comparatively low figure for Banda. It has been unusually unhealthy in past years and

during 1922 successful efforts have been made to reduce the previous high death-rate by reducing the population.

Cawnpore (26.0)—Ten of the 13 deaths were due to pneumonia. Overcrowding is liable to occur in Cawnpore.

The following district jails also show death-rate above 20.0—

Kaun	22.7
Bith	22.1
Gorakhpur	22.3
Sahjoluapur	21.1
Jaunpur	20.4

Gorakhpur needs mention as the jail has been overcrowded during the greater part of the year owing to the trial in it of the Chauri Chaura riot case. Under the circumstances the death-rate is satisfactory and speaks well for the care taken by the medical authorities during the progress of the trial.

It is satisfactory to note that there were no deaths during the year in the following six jails:—

1. Sahjoluapur District Jail.	4. Lalitpur 5th Class Jail.
2. Bareilly Juvenile Jail.	5. Pauri ditto.
3. Almora District Jail.	6. Ballia ditto.

39. *statement no. XV shows the admissions and deaths from the chief diseases among convicts in jails during the year.*

40. *Pneumonia*—In the year under report, pneumonia accounted for the highest number of deaths amounting to 110 with 412 admissions. There were 76 deaths and 330 admissions in the previous year. The ratio of deaths per mille was 4.7 against 3.4 in 1921. Among central jails Nani (Allahabad) and Bareilly, and among district jails Moradabad and Cawnpore show a large number of admissions and deaths from this disease. There was no very apparent cause existing in these jails to which the unusual prevalence of this disease can be attributed, but it must be remembered that our jails have been full during the year which tends to aggravate respiratory diseases.

41. *Tuberculosis*—Caused 46 deaths with 304 admissions against 79 deaths and 309 admissions in 1921.

Convicts, who were discovered suffering from this disease in the jails of these provinces are, as far as possible, removed to the Sultanpur Tuberculosis Jail for segregation and treatment.

The reduction in the number of deaths from this disease is however mainly due to the release of practically all tuberculosis prisoners in July, 1922, but still the fact that these prisoners now receive special care and treatment, which go a long way to reduce mortality, cannot be overlooked.

42. *Dysentery*—Caused 37 deaths and 743 admissions as compared with 48 deaths and 784 admissions in 1921. The ratio of deaths per mille was 1.5 against 2.1 in 1921.

43. *Influenza*—Caused 21 deaths against 47 in 1921. It will thus be seen that this disease has not yet entirely disappeared.

44. *Diarrhoea*—The number of deaths from this disease fell from 17 in 1921 to 11. The admissions numbered 422 against 421 in the previous year. The ratio of deaths per mille was 0.4 against 0.7 in 1921. It should be noted in this case that wheat was largely used

during the year in the diet, which probably accounts for the improvement.

45. *Malarial fever*.—The admissions and deaths from this disease numbered 5,005 and 11 respectively, which show improvement when compared with the last year's figures, viz, 5,214 admissions and 16 deaths. The ratio of deaths per mille was 0·4 against 0·7 in 1921. In spite of the unusually heavy rain there were less malarial fever cases in our jails. It is interesting to note that no prophylactic issue of quinine was made except in one or two instances.

46. There is a clean bill of health as regards plague, cholera and relapsing fever, which is a satisfactory feature.

47. *Statement no. XVII shows the mortality among convicts according to the length of time passed in jails*.—This shows that the ratio per mille of mortality is the highest among those convicts who completed their sentences above three but not exceeding seven years and the next highest is among those who had spent not exceeding six months in jails.

GENERAL.

48. *Statement no. XVIII shows the particulars regarding under-trial prisoners in the jails during the year*.—There were 2,939 prisoners of both sexes under trial at the beginning of the year, 43,241 or 2,506 more than in 1921, were received during the year, making a total of 46,180. Their daily average was 3,381 or 327 more than in the previous year.

Out of 46,180 under-trial prisoners available for disposal, 19,306 were released, 19,909 were convicted and sentenced, 3,832 were transferred, 62 died, and one escaped from Dehra Dun Jail during the year. The number in confinement at the close of the year was 3,070 or 131 more than that with which the year opened.

The death-rate *per mille* of under-trial prisoners was 18·3 as compared with 26·1 in 1921.

49. *Statement A shows the nature and amount of accommodation for each class of prisoners in the jails at the close of the year*.—The accommodation for all classes of prisoners at the end of the year was practically the same as in the previous year, being 33,799 against 33,795 in 1921, showing an increase of 4, which was in the Jaunpur District Jail, where four lunatic cells were built during the year. An average number of 26,778 prisoners of all classes was confined during the year. As all the accommodation available in a jail cannot be utilized to the fullest extent due to reservation of accommodation for sick prisoners, females, juveniles, etc., overcrowding occurred occasionally at several jails which was, however, relieved by transferring the excess number of prisoners from those jails to other jails where accommodation for them was available.

The excess number of male under-trial prisoners was accommodated in the convicts' barracks, which were temporarily utilized for this purpose.

50. *Statement B shows the condition of the prisoners discharged from the jails during the year*.—Out of 46,306 prisoners discharged during the year, 11,777 or 25·43 per cent. neither lost nor gained weight, 30,222 or 65·27 per cent. gained weight and 4,307 or 9·30 per cent. lost weight.

The percentages are much the same as those of the previous year and need no remarks.

51. *Statement C shows the working of the remission rules.*—Six thousand four hundred and forty-five prisoners were released under the Good Conduct Remission Rules during the year against 7,166 in 1921. The special jail delivery of 12th July 1922, is responsible for the decrease.

Special remission was awarded to 3,528 prisoners, who committed no prison offence during the year against 5 280 last year.

Special remission was also given to 1,845 prisoners of below one year's sentence for good work, as compared with 2,057 in 1921. These were for the most part prisoners, who were appointed convict officials as special cases owing to the paucity of eligible men.

The number of prisoners, who came under the remission rules but failed to gain any, on account of misconduct, etc., was 11.

The remission system worked well as usual. It is much appreciated by prisoners and is a great incentive to good work and behaviour.

52. *Statement D shows the nature of crimes for which the convicts were imprisoned.*—As compared with 1921, a large increase in convictions is shown under the following heads:—

	1922	1921.	Increase during 1922.
Criminal intimidation and insult and annoyance ..	287	132	155
Bad livelihood and belonging to a wandering gang of thieves	6,948	4,908	2,040
All other offences	5,801	4 468	1,338

These increases are due to convictions under these sections of a large number of non-co-operator prisoners during the year.

53. *Public Works.*—The grants made by Government for jail Public Works during the financial year 1922-23 were as follows:—

	Rs.
1.—(a) Public Works grant for works costing above Rs. 5,000	17,689
(b) Lump grant for works costing above Rs. 2,500 but not exceeding Rs. 5,000	20,000
(c) Grant for incomplete works costing above Rs. 5,000	18,195
Total	55,884
2 — Petty construction and repairs—	
(a) Central jails	25,000
(b) District jails	45,000
(c) Additional grant	25,000
Total	95,000
GRAND TOTAL	1,50,884

54. During the calendar year under report Rs. 1,57,599 was allotted for various works in the department as shown below:—

	Rs.
1 Re-roofing jail barracks and other buildings ..	40,986
2 Latrines	493
3. Wardens and officials' quarters	19,879
4 Gallows	1,039
5 Water-supply	11 979
6. Enclosure and other walls	36,647
7. Cook houses	10,778
8. Drainage	43
9. Miscellaneous	36,260
Total	1,57,599

Re-roofing the jail barracks and other buildings.—The work of remodelling and re-roofing of various barracks is going on in the Fatehgarh Central Prison. In the Agra Central Prison barracks nos. 10 and 30 were reroofed during the year.

The district jails where re-roofing of barracks was done were:—Lucknow, Benares, Etawah, Gonda and Sultanpur.

The tiled roof of the warders' quarters in the district jail at Dehra Dun was replaced by sheet-iron. The warders' quarters in the jails at Azamgarh, Unao and Pauri and the muharrir's quarters at Gonda and the jailer's quarters at Almorah were reroofed. The Superintendent's bungalow at the Central Jail, Agra, was thatched.

A number of godowns are being re-roofed in Gonda and Partabgarh District Jails.

Latrines.—An eight-seated latrine was constructed at Orai.

Warders and officials' quarters.—The warders and officials' quarters in Fyzabad, Fatehpur and Bulandshahr District Jails and in the central jail at Lucknow were completed during the year and money was allotted for the completion of these quarters at Unao and Shahjahanpur District Jails. Special repairs to the warders' quarters in the district jails at Bareilly, Bahraich and Sultanpur and the jailer's quarters in the district jail at Allahabad were carried out. Certain additions and alterations to the quarters of the medical officers were made at Muttra and Ghazipur District Jails. At Muttra a new house for the jailer is being built.

A corrugated iron verandah for one row of warders' quarters was provided at Hardoi. The complaint of insufficient accommodation for the warder staff at Naini Tal was removed by enclosing the far end of the verandah attached to the quarters by wood work.

The warders' quarters in the district jails at Bareilly and Budaun suffered heavily during the rains. In the former, temporary arrangements were made for the accommodation of these men by converting an unused building into three warders' quarters, but nothing could be done in the shape of construction of new quarters at both these places for want of funds.

Gallows.—The work of constructing a new gallows in the Rae Bareilly District Jail is in hand, while in the district jails at Basti and Gonda special repairs were done to the gallows apparatus and platform respectively.

Water-supply.—A valve of a pump in Fatehpur District Jail, a new pump in Bulandshahr District Jail and two water-lifts in Sitapur District Jail were provided. Repairs to the wells at Jhansi and Budaun and to the water-pipes in the Bara Banki District Jail were carried out, and additions and alterations to the water channels at Muttra District Jail were made. The work of constructing a tube well in the compound of the district jail at Aligarh was taken in hand in the previous year, but remained incomplete. Funds for its completion have been allotted during the year. The existing water-supply pipes in the district jail at Lucknow were renewed.

The water pipes in the district jail at Unao require renewal, and a project for the work amounting to Rs. 6,191 has been sanctioned, but nothing can be done till funds are provided. The sinking of a tube well in the district jail at Banda is essential. Both these works have been provided for in the budget for the year 1923-24.

Enclosure and other walls.—The mud walls of the gardens attached to Mainpuri and Etawah District Jails were re-built. A partition wall in the non-habitual ward in the district jail at Fyzabad and three partition walls in certain enclosures in the district jail at Benares were constructed. A wall in one of the barrack enclosures in the district jail at Bijnor, which was cracked, was repaired. Besides these, many inner and outer walls and other buildings in various jails were damaged by the heavy rain, and they were either rebuilt or repaired. The district jail at Sitapur suffered most, and the building operations there are not yet finished. The usual grant placed yearly at the disposal of the department proved inadequate, and an extra grant of Rs. 25,000 was asked for and specially sanctioned by Government for this purpose. This too proved insufficient, and Government was again written to for an additional extra sum, which, however, could not be sanctioned due to financial stringency and consequently various works had to be postponed till the beginning of the next financial year.

Cook house.—Six blocks of temporary kitchens for political prisoners were constructed at the Agra District Jail, and money for constructing a new cook house was allotted. A kitchen for tubercular patients is being built at Sultanpur. The wooden frames and wire netting of the doors of the cook house at Partabgarh were renewed. The wire gauze of the main cook house at Aligarh was replaced and a new kitchen was constructed at Cawnpore.

Drainage.—Repairs to the drains in the solitary cells at Unao District Jail were carried out.

Miscellaneous—The allotments made for works under this head amounted to Rs 36,260. These include the following :—

- (1) Special repairs to certain jail buildings at Bareilly, Hamirpur, Allahabad, Rae Bareilly, Banda and Sultanpur.
- (2) Remodelling latrines and constructing new cook houses, etc, for political prisoners at Lucknow District Jail.
- (3) Replacement of broken beams of side room and godown in the machine house at the Agra Central Jail.
- (4) Providing berths in barrack no. 10 at Kheri District Jail.
- (5) Providing sheet iron doors in place of wooden gates leading to enclosures at Bahraich District Jail.
- (6) Rebuilding a carpet factory and strengthening the circle palisade at Jhansi District Jail.
- (7) Constructing a godown at Naini Tal and a cattle shed at Karwi jails.
- (8) Certain other minor works in various jails such as converting solitary cells into segregation cells, providing iron grated doors and renewing rotten beams, etc, were carried out.

The construction of four lunatic cells and quarters for their guard, at Jaunpur District Jail was completed during the year.

Apart from the above, a sum of Rs. 18,271 was allotted for the usual annual repairs to jail buildings.

55. *Sub-Assistant Surgeons.*—The work and conduct of the subordinate medical establishment attached to the jails was excellent, and has undoubtedly contributed largely to the unusually low death rate during the year. Of the 107 medical subordinates employed none were punished. The proposal of last year for raising their jail allowances has not been

sanctioned so far owing to financial reasons, although their pay has lately been substantially raised.

56. *Improvements in the pay and prospects of the jail staff*—It is unnecessary to repeat here what was stated in paragraph 58 of last year's report but now a reply to the memorial for increased pay has been received to the effect that for financial reason no increase can be given. It is sincerely hoped that directly funds are available, this matter may be reconsidered, as there is no doubt that the pay of jail officials in the United Provinces is less than that given elsewhere.

57. *Indian staff.*—The work of the Indian staff deserves the greatest praise. In the beginning of the year a large number of non-co operators were arrested, and a strong spirit of lawlessness and opposition to discipline was noticed in our jails. The non-co-operator prisoners from the beginning did their best to incite the ordinary prisoners to mischief and the greatest tact, firmness and vigilance was necessary to prevent outbreaks. It speaks remarkably well for the Indian jailers that in spite of this danger, no untoward happenings took place.

The following four jails had particularly hard work at the beginning of the year as political prisoners were confined in them, viz., Lucknow, Benares, Agra and Bareilly. Towards the end of January it was decided to concentrate these political prisoners in the Lucknow and Fyzabad District Jails and from that time onward the staff at each of these jails had very anxious and responsible duties to perform. The second class misdemeanants in the Fyzabad Jail took some time to understand the necessity of conforming to order and discipline and great credit is due to the jailer there, Babu Sita Ram, for his successful efforts in bringing about order and obedience.

At Gorakhpur District Jail the staff was kept very busy in dealing with the large number of under-trials concerned in the Chauri Chaura case. The trial took place in the jail and lasted for several months. The officers conducting it speak in the highest terms of the capable management of the Jailer, Babu Jwala Prasad.

Apart from what has been said above as to the condition of the special jails, it must be remembered that large numbers of quasi-political prisoners were admitted into practically all our jails specially about the beginning of 1922. It was particularly essential to prevent these prisoners contaminating the ordinary jail population and much praise is due to our Indian Jailers generally.

The following are particularly mentioned for their good work :—

1. Munshi Prag Dass, Rai Sahib, of Aligarh District Jail.
2. Hafiz Muhammad Ibrahim, Khan Sahib, of Lucknow District Jail.
3. Munshi Durga Prasad of Allahabad District Jail.
4. Shaikh Muhammad Ishaq of Benares District Jail.
5. Thakur Bhogi Ram of Meerut District Jail.
6. Babu Shiam Behari Lal, Rai Sahib, of Sitapur District Jail.
7. Sheikh Amanat-ullah, Khan Sahib of Cawnpore District Jail.
8. Pandit Champa Lal, Rai Sahib, of Rae Bareilly District Jail.
9. Babu Sita Ram of Fyzabad District Jail.

It is pleasing to be able to say that after some years two Jailers in these provinces were awarded Indian titles for their good work during the year. They were Baba Shiam Bihari Lal of Sitapur (Rai Sahib) and Shaikh Amanat-Allah of Cawnpore (Khan Sahib) and they fully deserved them. Such recognition is a valuable incentive to good work among others.

58. *European staff.*—The work of the European subordinates was excellent. They also had their share of responsibility caused by the non-co-operator prisoners as it became necessary in certain instances to confine them in central jails. During the year Benares Central Prison was managed entirely by an Indian staff and I must again place on record my high appreciation of excellent work done by Bhai Ganda Singh, Sardar Sahib, the Jailer there.

The following European jailers are deserving of mention for good work :—

1. Mr. G. S. Boraston,
2. Mr. C. E. Teyen,
3. Mr. C. W. Laing.

The first mentioned was awarded a gold watch by Government in recognition of his excellent work at Agra.

59. *Reserved warder guard.*—This guard has done well. There were 119 punishments out of 608 employed. Most of the punishments were petty fines for ordinary neglect of duty.

60. *Intra-mural guard.*—Of the total number employed, viz. 1,619 there were 729 punishments, most of them were minor but necessary to enforce discipline. It may be mentioned that owing to the comparatively low number of our permanent warder staff, a large number of extra temporary warders had to be employed for watch and ward of our jails. There is no doubt that when the financial position in the province becomes easier, the employment of these temporary warders will require remedying by increasing the number of our permanent staff. Another question has been under consideration, namely, the amalgamation of the reserve and intra-mural guard. As matters are at present I am personally very strongly against this, and consider it inadvisable in every way. At present our reserve warder guard is quite separate from the intra-mural, but small though it is, it is efficient and fully aware of its responsibility.

61. *Superintendents of central prisons.*—The following Superintendents held charge as under :—

Lieutenant-Colonel J. E. Clements, I.M.S. This officer held charge of the Lucknow Jails and had a most responsible and arduous time in dealing with the first class misdemeanants in his district jail. These prisoners were from the beginning defiant and turbulent and ready at every turn to cause trouble. He had them well in hand and much credit is due to him for enforcing law and order under most difficult circumstances.

Major I. M. Macrae, I.M.S., returned from long leave on the 1st October to the Bareilly Central Prison.

Major C. E. Palmer, I.M.S., did very well at Naini (Allahabad) Central Prison which also contains European prisoners.

Major G. Holroyd, I.M.S., held charge of the Agra Prisons throughout the year. He had to deal with many political prisoners in his district and central jails for some time and his tactful management was quite praiseworthy.

Mr. A. A. MacCurtis, I.M.D., held charge of the Fatehgarh Jails throughout the year and deserves great credit for making many improvements in both these jails. Mr. MacCurtis was confirmed as a Superintendent of a Central Prison in these provinces under orders of the Government of India in July last (cf. G. O. no. 3436/VI—1207, dated the 23rd August, 1922).

Major N. S. Harvey, I.M.D., of Benares jails was superannuated in September last, but his services have been retained for a further year. Early in the year, when political prisoners were confined in his district jail, this officer had a most responsible and anxious time in dealing with them. The greatest tact and forbearance was called for in this case. When he retires, the Jail department will lose the valuable services of an experienced officer.

Lieutenant H. B. Rosair, I.M.D., held charge of the Bareilly Central and Juvenile Jails up to 30th September, 1922. He did well.

62. The following Superintendents are mentioned as having done especially good work in their district jails:—

Lieutenant-Colonel E. C. Hepper, I.M.S.
 Lieutenant-Colonel R. F. Baird, I.M.S.
 Lieutenant-Colonel W. M. Pearson, M.B., I.M.S.
 Major J. S. O'Neill, M.C., M.B., I.M.S.
 Major H. C. Buckley, I.M.S.
 Mr. R. N. Bhatia, M.B., F.R.C.S.E.
 Mr. D. K. Mukerji, L.M.S.
 Rai Sahib Sarup Narain, L.M.S.
 Mr. Shambhu Nath Misra, L.M.S.
 Rai Bahadur Mithan Lal.

Rai Bahadur Mithan Lal, Jailer of the Juvenile Jail at Bareilly, was especially appointed wholtime Superintendent of Fyzabad Jail when that jail was set aside for second class misdemeanants. I must speak in terms of the highest praise of his work at Fyzabad. His prisoners were of a most unruly and intractable class fully determined to defy discipline on every occasion. Rai Bahadur Mithan Lal dealt with them successfully and with great tact and deserves the greatest credit for his valuable services. He held charge until 30th September, 1922, when most of these prisoners had completed their sentences.

63. *Jail Auditor*.—Babu Ashiq Ali was Jail Auditor up to the 21st October, 1922. He did useful work during his term.

64. *Aid to Discharged Prisoners' Fund*.—Destitute prisoners were, as usual, given grants of money and clothing from this fund which is not sufficient to render assistance on an extensive scale, as the total income during the year was only Rs. 4,838-7-4. It is, however, satisfactory to be able to report that the Benares Aman Sabha has recently come forward with a proposal to help discharged indigent prisoners. The suggestion has been accepted by Government, and it is hoped something may come of it. There is no doubt that eventually an effort will have to be made to assist discharged prisoners and it is a hopeful sign

that a beginning should be made voluntarily as the Benares Aman Sabha has done. An account of the fund is given below :—

		Rs.	a	p.
Balance in hand on 1st January, 1922	..	1,339	6	7
Interest on the capital sum of Rs. 44,000 invested in Govern- ment Promissory Notes	..	1,540	0	0
Contribution from Government	..	1,500	0	0
Miscellaneous receipts from jails, i.e., money found on search of prisoners, etc.	..	459	0	9
Total	..	4,839	7	4
Amount sent to Superintendents of various jails to meet cost of clothing, etc., given to indigent prisoners	..	3,931	12	0
Balance in hand at the end of the year	..	906	11	4

65. *General remarks.*—The year 1922 has been, I should imagine, one of the most trying and anxious the Jail department has ever passed through. Owing to the large number of non-co-operator prisoners admitted into our prisons at a time when a spirit of unrest and turbulence was very noticeable among the ordinary prison population, much anxious consideration was given as to how best to prevent possible trouble and deal with the varying situations as they arose. That the Jail department in these provinces succeeded in carrying on without riot and bloodshed during the year is, as I think will be admitted, a most creditable performance and speaks remarkably well for the general standard of vigilance and tact shown by the officials in charge. Lucknow and Fyzabad eventually took all the first and second class misdemeanants, but there remained in all jails numbers of quasi-political offenders, who did their level best to promote mischief and that they failed in this large province, speaks volumes for the vigilance and devotion to duty of our staff generally.

The Indian Jails Committee in their report recommended the revision of sentences in the case of long-term casual and habitual prisoners. Effect was given to this by Government Resolution no. 3144/VI—1133, dated the 3rd August, 1922, which orders that such boards should meet twice a year at each central prison, for this purpose. The boards have been completed for the first time this year, with the result that out of 1,71 long-term prisoners brought before the boards 379 were released.

Another matter referred to in the Jails Committee Report is the frequency of the imposition of fetters on prisoners in our jails. A large reduction in the number of fettered prisoners has been brought about by abolishing fetters in outside gangs in all central jails and removing fetters from convict night-watchmen employed in outside gangs in District Jails. This procedure has not led to any escapes and is well reported on by Superintendents. It is under consideration whether the privilege of working unfettered should be extended to outside gangs in district jails also.

Effect has been given to the Jails Committee's recommendations regarding a more liberal system of interviews and letters for convicts with their relatives and friends. The period is now once in three months for an ordinary convict. It used to be once in six months. There are other concessions also of this nature as laid down in the Jail Manual.

The jail committee report chapter XIII recommends the concentration of mentally defective prisoners in a separate institution. Effect has been given to this and these prisoners are now sent to the Agra District Jail.

There is now in these provinces an association of jail officials. Its formation has been sanctioned during the year by Government vide G. O. no. 1972/VI-N—7-1248, dated the 11th August, 1922, in accordance with the rules on the subject. The association is useful and popular among the officials.

66. *Head Office.*—Two causes have arisen this year, which have increased very much the work in the Head Office. The first is political prisoners and the second is the large amount of correspondence that has arisen in connection with the Jail Committee Recommendations. The greatest credit is due to the staff for the capable and expeditious way in which this heavy work has been dealt with. My Head Assistant, Thakur Shudh Singh, deserves special mention for his capable management of the office, and has dealt with much intricate work in a most capable and efficient manner. The Head Clerk, Babu Satis Chandra Ray, also deserves mention for his excellent and painstaking work.

I have the honour to be,

SIR,

Your most obedient servant,

J. M. WOOLLEY, M.A., LT.-COL., I.M.S.,
Inspector-General of Prisons,
United Provinces.

APPENDICES.

Showing the distribution of the prisoners of all classes confined in the jails

NOTE.—The convicts were employed as warders and overseers during the year. The following is the nature of other punishments.—

Warning, forfeiture of good conduct remission, suspension, fine and dismissal.

Showing the scales of diet in force in the jails of

1

Diet scales of labouring prisoners

The following dietary is given to all adult male prisoners sentenced to rigorous imprisonment.—

Scale no I Nitrogen—280. Carbon—2687

Day of week.	Cereal pulse combination.	Dal	Vegetables	Oil.	Chullics.	Salt.	Firewood	Antiscorbutic
Sunday ..	14	1	3 4/25	1	150	5	From 1st	
Monday ..	14	1	3 4/25	1	150	5	April to 1st	
Tuesday ..	14	1	3 4/25	1	150	5	November 2	
Wednesday	14	1	3 4/25	1	150	5	daily ration	
Thursday	14	1	3 4/25	1	150	5	of either 1	
Friday ..	14	1	3 4/25	1	150	5	ounce of	
Saturday	14	1	3 4/25	1	150	5	lime-juice,	

70 grains
"amchur,"
70 grains
"putwa," or
140 grains
tamarind
pulp should
be given

The following dietary is given to—

(a) All adult female prisoners sentenced to rigorous imprisonment.

(b) All juvenile prisoners not arrived at puberty

Scale no. II Nitrogen—210 Carbon—20857.

Days of week.	Cereal combination	Dal	Vegetables	Oil	Chullics	Salt	Firewood	Antiscorbutic.
Sunday ..	12	1	3 4/25	1	150	5	From 1st	
Monday ..	12	1	3 4/25	1	150	5	April to 1st	
Tuesday ..	12	1	3 4/25	1	150	5	November 2	
Wednesday	12	1	3 4/25	1	150	5	daily ration	
Thursday	12	1	3 4/25	1	150	5	of either 1	
Friday ..	12	1	3 4/25	1	150	5	ounce lime-	
Saturday	12	1	3 4/25	1	150	5	juice, 70	

grains "am-
chur," 70
grains, "put
wa," or 140
grains tamar-
ind pulp
should be
given

The 14 chittaks cereal pulse combination is invariably to be made up according to the subjoined table:—

Combination letter.	Principal.		Adjuvant.		Total.
	Grain.	Quantity.	Grain.	Quantity.	
		Ch.		Ch.	
a	Wheat..	11	Barley..	3 14	
b	Bajra ..	12	Pulse ..	2 14	
c	Makka ..	12	Do. ..	2 14	
d	Marua ..	11 1/2	Do. ..	2 1/2 14	
e	Wheat ..	11 1/2	Do. ..	2 1/2 14	
f	Juar ..	11	Do. ..	3 14	
g	Barley ..	11	Do. ..	3 14	
h	Rice ..	10 1/2	Do. ..	3 1/2 14	

NOTE.—Any two of the above may be combined by taking half of each principal and

half of each adjutant: thus $\frac{b+c}{2}$ will

give bajra 6 chittacks + makka 6 chittacks + pulse 2 chittacks=14,

or $\frac{a+g}{2}$ will give wheat 5 1/2 chittacks

+ barley 7 + pulse 1 1/2=14.

If rice is cheap it may be used in the form of bread or boiled as "khichri," in either

case the combination should be $\frac{a+h}{2}$,

that is, rice 5 1/2 + wheat 5 1/2 + barley 1 1/2 + pulse 1 1/2=14

When the rice is given as "khichri," the wheat and barley are to be given as bread.

The 12 chittaks cereal combination is invariably to be made up according to the subjoined table:—

Combination letter.	Principal.		Adjuvant.		Total.
	Grain.	Quantity.	Grain.	Quantity.	
		Ch.		Ch.	
a	Bajra ..	12	None required.	..	12
c	Makka ..	12	Ditto..	..	12
d	Marua ..	8	Wheat..	4	12
e	Wheat ..	12	None required.	..	12
f	Juar ..	7	Wheat..	5	12
g	Barley ..	7	Do. ..	5	12
h	Rice ..	6 1/2	Do. ..	5 1/2	12

NOTE.—Any two of the above may be combined as in the case of Scale no. I.

With regard to combination letter "h," the rice and wheat may be baked together as bread, or the rice may be given as "khichari" and the wheat as bread.

the United Provinces during the year 1922.

2		3		4				
Diet scale of non-labouring prisoners.		Punishment diet scale.		Note of				
The following dietary is given to -				Eight chattras of wheat flour of the kind in general use in the U.P. for the year, time being made into bread of good with the usual quantity of salt and as much water as the men may desire, shall be allowed to each prisoner.				
(a) All adult prisoners sentenced to simple imprisonment for any term.				No change effected in diet scales during the year.				
(b) All adult prisoners under trial.								
(c) All adult female prisoners sentenced to simple imprisonment for any length of term or while under trial.								
Scale no. III. Nitrogen—1.0 Cal. n—2905.7								
Days of week.	Cereal combination.	Dal.	Vegetables.	Oil.	Chutnies.	Salt.	Firewood.	Antiseptic.
	Ch.	Ch.	Ch.	Ch.	No.	Gr.	Ch.	
Sunday ..	10	1	3 4 25	1	150		5	From 1st April to 1st November.
Monday ..	10	1	3 4 25	1	150		5	daily ration of either 1 ounce lime-juice, 70 grains "am- chur," 70 grains "patwa," or 140 grains tamind pulp should be given.
Tuesday ..	10	1	3 4 25	1	150		5	
Wednesday ..	10	1	3 4 25	1	150		5	
Thursday ..	10	1	3 4 25	1	150		5	
Friday ..	10	1	3 4 25	1	150		5	
Saturday ..	10	1	3 4 25	1	150		5	
								Duration of confinement upon punishment diet scale for three days, or 72 hours, only.

N.Y.

The 10 chattras cereal combination is invariably to be made up according to the subjoined table :-

Highest nitrogen—182.8 Lowest nitrogen—179.5 Calton constant.	Com- bination letter	Principal.		Adjunct.		Total
		Grain.	Quan- tity	Grain	Quan- tity	
			Ch.		Ch.	Ch.
	a	Pajra ..	10	None required	..	10
	b	M kka ..	10	Do.	..	10
	c	Maru ..	8	Wheat ..	2	10
	d	Jab ..	7	Do. ..	3	10
	e	Wheat ..	10	None required	..	10
	f	Barley ..	7	Wheat ..	3	10
	g	Rice ..	5	Do. ..	5	10

NOTE.—Any two of the above may be combined as in the case of Scale no. I.

With regard to letter "h" the rice and wheat may be baked together as bread, or the rice may be given as "*khichri*" and the wheat as bread.

N.B.—The wheat used is to be of second quality or "*red*" wheat.

Only good, succulent and nutritious vegetables to be issued, all stalks and midribs being excluded.

Oil (mustard) only is to be issued, flavoured with fried onions, when given with the dal.

Nil.

STATEMENT

Showing the sickness and mortality among prisoners of all classes

1	2	3	4	5	6
Serial number.	Jails.	Number of prisoners that can be accommodated in the parts of the jails devoted to convicts, under-trials and civil prisoners respectively but exclusive of hospital and observation cells.	Average daily strength.	Maximum population on any one day.	Number admitted into hospital.

ORDERS OF GOVERNMENT.

No. 3339.

JUDICIAL (CRIMINAL) DEPARTMENT.

Dated Allahabad, the 5th September, 1923.

RESOLUTION.

READ—

Annual report on the condition and management of the jails in the United Provinces for the year ending 31st December, 1922.

OBSERVATIONS.—The general summary again shows a substantial increase in the total number of prisoners of all classes admitted to the jails of the United Provinces. In 1920 the number was 77,593, in 1921 it was 83,743, and in 1922 it rose to 94,958. These figures, however, which are based on the admissions to each separate jail do not indicate accurately the actual number of prisoners, since many are included twice over, as for instance those who are admitted first as undertrials and subsequently as convicts and those who are transferred from one jail to another. The total number of undertrial prisoners admitted was 43,241 as against 41,635 in 1921. Of these 19,306 were released. The actual number of persons imprisoned as convicts during the year was 34,171 as against 31,786 in 1921. The increase is to be ascribed partly to convictions for political offences, but mainly to a substantial increase in the number of persons imprisoned for failure to find security under the preventive sections of the Criminal Procedure Code. These numbered 4,908 in 1921 and 6,948 in 1922. Convictions for the more ordinary crimes were fewer than in 1921. Thus the number of convictions for theft fell from 5,098 to 4,309, and for house-breaking from 3,550 to 2,998. Convictions for dacoity, however, rose from 1,137 to 1,248. The daily average jail population, including prisoners of all classes, rose progressively from 24,806 in January to 28,046 in June. Owing to a jail delivery in July the average fell to 25,389 in that month, but again rose to 28,293 in October. There was a slight decrease in the last two months of the year.

2. The year 1922 was the first in which no prisoners at all were transported to the Andamans. In 1920 out of 443 persons sentenced to transportation 403 were actually deported and in 1921, during which year deportation was discontinued, only 92 out of 393 were deported. In 1922 the

number sentenced to transportation was 393, and all of these had to be retained in the jails of the United Provinces. The actual number is comparatively small, but the annual addition of between 300 and 400 long-term prisoners, who previously would have been deported and who may be expected to include a large proportion of dacoits and other dangerous criminals, will ultimately have an important effect on jail administration.

3. The outstanding feature of the year was the large number of political prisoners dealt with. At the beginning of the year the District Jails of Lucknow, Benares, Bareilly and Agra were set aside for them and a considerable proportion of them received special treatment. From January 26th the Lucknow District Jail alone was reserved for this purpose, while the Fyzabad District Jail was set aside for the accommodation of a group of prisoners classified as "second class misdemeanants." These consisted of prisoners who had been accorded some measure of special treatment, but who were not considered either on account of their status or from the nature of their offences to merit treatment as "first class misdemeanants." The difficulty of dealing with these prisoners, who at one time numbered over 500, necessitated the appointment for a few months of a whole-time Superintendent of the Fyzabad District Jail. After the initial classification, however, no more prisoners were admitted to this class, which by the end of the year had practically disappeared. All other prisoners who were not classified as first class misdemeanants were sent to serve out their sentences as ordinary prisoners. A further change in the system of classification took place with the creation in October of the "special division," admission to which is strictly regulated and depends not only on the status of the prisoner but also on the nature of the offence. An important distinction is that it is not confined to prisoners convicted of "political" offences.

4. Ten prisoners escaped during the year, including a notorious dacoit, Komal, who escaped from the Gorakhpur jail. He was aided and accompanied by a convict warder and their escape was facilitated by a convict overseer on duty outside.

5. The Inspector-General draws attention to the high percentage of convicts who were sentenced to short terms of imprisonment. Those sentenced to terms not exceeding one month numbered 5,141 or 15·09 per cent. of the whole, while those sentenced to terms between one month and three months and those sentenced to terms between three months

and six months numbered 6,322 (18·56 per cent.) and 5,337 (15·66 per cent.). Thus a little less than one-half of the total number of convict prisoners admitted during the year were under sentence of short terms of imprisonment. This is a slight improvement on the percentage for the previous year (54·14 per cent.), but the number is still considerable and it is again necessary to draw attention to the desirability of avoiding as far as possible sentences for short terms of imprisonment, the deterrent and reformatory value of which is questionable. The recent amendment of section 562, Criminal Procedure Code, may lead to some improvement and the possibility of further extending the probation system is receiving the attention of the Government.

6. The cost of guarding and maintaining prisoners was Rs. 38,52,422 or Rs. 4,10,068 more than in the previous year. Some increase was inevitable, in view of the increase in the number of prisoners, but at the same time the cost per head rose from Rs. 116 to Rs. 125. The greater part of the increased cost was due to heavier dietary charges. Over Rs. 3 lakhs of the total increase was under this head and the cost of feeding a single prisoner rose from Rs. 60-2-0 to Rs. 67-14-8.

7. The death-rate for the year was only 14·6 per mille, which compares favourably with the rate of 21·4 per mille in 1921. The number of deaths was 391, of which 110 were due to pneumonia, 46 to tuberculosis, 37 to dysentery and 21 to influenza.

8. Little progress has been possible in introducing the reforms recommended by the Indian Jails Committee, as most of them involve heavy expenditure, which under present financial conditions it is impossible to undertake. Effect, however, has been given to several of the Committee's recommendations which involve no additional expenditure. Among these may be mentioned the appointment of non-official visitors to District Jails, the constitution of Boards to revise the sentences of long-term prisoners, and the restriction of the use of fetters.

9. The Governor in Council acknowledges with gratitude the services of the Superintendents and members of the subordinate staff, who have been specially mentioned by the Inspector-General. On some of them the presence in jail of a large number of political and quasi-political prisoners imposed a very severe strain and the task of jail administration was carried on under conditions of unusual difficulty.

ORDER — Ordered that a copy of this resolution be forwarded to the Inspector-General of Prisons, United Provinces, for information.

Ordered also that this resolution be published in the *United Provinces Government Gazette* for general information

By order of the Governor in Council,

L. S. WHITE,

Deputy Secretary to Government, United Provinces.
